Index of Subjects

African meals
Iron absorption from typical West African meals containing contaminating Fe **64**, 541, 1990

Alcohol
Testosterone, sex hormone-binding globulin, calculated free testosterone, and oestradiol in male vegans and omnivores. **64**, 111, 1990
Alcohol and its acute effects on resting metabolic rate and diet-induced thermogenesis **64**, 413, 1990

Antibiotics
The influence of inclusion of either an antibiotic or a probiotic in the diet on the development of digestive enzyme activity in the pig. **64**, 59, 1990

Antinutritional factors
Comparison of growth, nitrogen metabolism and organ weights in piglets and rats fed on diets containing *Phaseolus vulgaris* beans. **64**, 743, 1990
Effect of variable protein contents in diets containing *Phaseolus vulgaris* beans on performance, organ weights and blood variables in piglets, rats and chickens. **64**, 755, 1990

Antioxidants
Influence of malaria infection on peroxyl-radical trapping capacity in plasma from rural and urban Thai adults. **64**, 257, 1990

Arachidonic acid metabolites
The effect of acute feeding of carnitine, acetyl carnitine and propionyl carnitine on basal and A23187-stimulated eicosanoid release from rat carrageenan-elicited peritoneal macrophages **64**, 497, 1990

Bile acids
Effects of dietary polychlorinated biphenyls on cholesterol catabolism in rats. **64**, 161, 1990

Biotin absorption
Biotin supply by large bowel bacteria in minipigs: evidence from intracaecal avidin. **64**, 715, 1990

Biotin synthesis
Biotin supply by large bowel bacteria in minipigs: evidence from intracaecal avidin. **64**, 715, 1990

Blood flow
Tissue and whole-body oxygen uptake in fed and fasted steers **64**, 399, 1990

Body composition
Body composition changes in goats during early lactation estimated using a two-pool model of tritiated water kinetics. **64**, 121, 1990
Body composition of goat kids during sucking. Voluntary feed intake. **64**, 611, 1990

Body iron stores
Iron sufficiency in the population of Northern Ireland: estimates from blood measurements. **64**, 219, 1990

Butterfat
Lipid absorption and intestinal tumour incidence in rats fed on varying levels of calcium and butterfat **64**, 505, 1990

Caffeine
Effect of caffeine on zinc absorption and Zn concentration in rat tissue **64**, 553, 1990
Interaction between caffeine intake and heart zinc concentrations in the rat **64**, 561, 1990

Calcium
Binding of zinc and calcium to inositol phosphates (phytate) in vitro. **64**, 225, 1990
Lipid absorption and intestinal tumour incidence in rats fed on varying levels of calcium and butterfat **64**, 505, 1990

Calcium ionophore
Effects of calcium ionophore on vitamin E-deficient rat muscle. **64**, 245, 1990

Calcium metabolism
The effect of variation in dietary protein or mineral supply on calcium and phosphorus metabolism in lactating ewes. **64**, 147, 1990

Carbohydrate digestion
Large bowel fermentation in rats given diets containing raw peas (*Pisum sativum*) **64**, 569, 1990

Carnitine compounds
The effect of acute feeding of carnitine, acetyl carnitine and propionyl carnitine on basal and A23187-stimulated eicosanoid release from rat carrageenan-elicited peritoneal macrophages **64**, 497, 1990

Catecholamines
The effects of underfeeding for 7 d on the thermogenic and physiological response to glucose and insulin infusion (hyperinsulinaemic euglycaemic clamp) **64**, 427, 1990

Cholesterol
Effects of dietary polychlorinated biphenyls on cholesterol catabolism in rats. **64**, 161, 1990

Cholesterol metabolism
Dietary animal proteins and cholesterol metabolism in rabbits **64**, 473, 1990

Cobalt deficiency
Methylmalonyl-CoA mutase (*EC* 5.4.99.2) and methionine synthetase (*EC* 2.1.1.13) in the tissues of cobalt–vitamin B_{12} deficient sheep. **64**, 721, 1990

Colon
The effect of resistant starch on colon function in humans **64**, 589, 1990

Colonic microflora
Biotin supply by large bowel bacteria in minipigs: evidence from intracaecal avidin. **64**, 715, 1990

Computer-aided dietetics
Linear programming and pediatric dietetics **64**, 307, 1990

Contamination iron
Iron absorption from typical West African meals containing contaminating Fe **64**, 541, 1990
Cottonseed meal
A comparison of the availability and ileal digestibility of lysine in cottonseed and soya-bean meals for grower/finisher pigs. **64**, 663, 1990
Dairy products
Effect of the microbial lactase (*EC* 3.2.1.23) activity in yoghurt on the intestinal absorption of lactose: an in vivo study in lactase-deficient humans. **64**, 71, 1990
Dental caries
Potential dental effects of infants' fruit drinks studied in vitro. **64**, 273, 1990
Dental erosion
Potential dental effects of infants' fruit drinks studied in vitro. **64**, 273, 1990
Dietary fat
Long-term adaptation of pancreatic response by dogs to dietary fats of different degrees of saturation: olive and sunflower oil **64**, 487, 1990
Dietary fibre
The effect of soluble- and insoluble-fibre supplementation on post-prandial glucose tolerance, insulin and gastric inhibitory polypeptide secretion in healthy subjects. **64**, 103, 1990
Composition of faeces from human subjects consuming diets based on conventional foods containing different kinds and amounts of dietary fibre. **64**, 171, 1990
The biological effects and digestible energy value of a sugar-beet fibre preparation in the rat. **64**, 187, 1990
The effects of sugar-beet fibre and wheat bran on iron and zinc absorption in rats **64**, 547, 1990
Dietary fish oil supplements
A possible preventive effect of low-dose fish oil on early delivery and pre-eclampsia: indications from a 50-year-old controlled trial. **64**, 599, 1990
Dietary patterns
Dietary behaviours and sociocultural demographics in Northern Ireland **64**, 319, 1990
Dietary protein
Dietary animal proteins and cholesterol metabolism in rabbits **64**, 473, 1990
The immediate effects of abrupt diet composition changes in young pigs. **64**, 619, 1990
Dietetics
Linear programming and pediatric dietetics **64**, 307, 1990
Diet-induced thermogenesis
Alcohol and its acute effects on resting metabolic rate and diet-induced thermogenesis **64**, 413, 1990
Digestible energy
The biological effects and digestible energy value of a sugar-beet fibre preparation in the rat. **64**, 187, 1990
Early delivery
A possible preventive effect of low-dose fish oil on early delivery and pre-eclampsia: indications from a 50-year-old controlled trial. **64**, 599, 1990
Editorial
A new hand but the same pencil. **64**, 1, 1990
Dietary recommendations: how do we move forward? **64**, 301, 1990
Familiarity with the literature. **64**, 597, 1990
Electrolytes
Plasma electrolyte concentration in food-deprived goats orally supplemented with potassium chloride. **64**, 211, 1990
Energy content
Thermic effect of food in man: effect of meal composition, and energy content. **64**, 37, 1990
Energy expenditure
Discrepancies between energy intake and expenditure in physically active women. **64**, 23, 1990
Energy intake
Discrepancies between energy intake and expenditure in physically active women. **64**, 23, 1990
Energy and nitrogen intake, expenditure and retention at 20° in growing fowl given diets with a wide range of energy and protein contents. **64**, 625, 1990
Energy utilization
The effect of fishmeal supplementation of a straw-based diet on growth and calorimetric efficiency of growth in heifers. **64**, 639, 1990
Exercise
Discrepancies between energy intake and expenditure in physically active women. **64**, 23, 1990
Faecal composition
Composition of faeces from human subjects consuming diets based on conventional foods containing different kinds and amounts of dietary fibre. **64**, 171, 1990
Fasting
Tissue and whole-body oxygen uptake in fed and fasted steers **64**, 399, 1990
Fat
Testosterone, sex hormone-binding globulin, calculated free testosterone, and oestradiol in male vegans and omnivores. **64**, 111, 1990
Fat intake
The initial physiological responses to glucose ingestion in normal subjects are modified by a 3 d high-fat diet. **64**, 705, 1990
Fat mobilization
Body composition changes in goats during early lactation estimated using a two-pool model of tritiated water kinetics. **64**, 121, 1990
Feed intake
The immediate effects of abrupt diet composition changes in young pigs. **64**, 619, 1990
Fetus
Gucose partitioning in the pregnant ewe: effects of undernutrition and exercise **64**, 449, 1990
Effects of maternal undernutrition and exercise on glucose kinetics in fetal sheep **64**, 463, 1990
Fibre digestion
Effect of defaunation on protein and fibre digestion in sheep fed on ammonia-treated straw-based diets with or without maize. **64**, 765, 1990
Fishmeal
The effect of fishmeal supplementation of a straw-

based diet on growth and calorimetric efficiency of growth in heifers. **64**, 639, 1990

Folate
The effect of dietary zinc depletion and repletion on rats: Zn concentration in various tissues and activity of pancreatic γ-glutamyl hydrolase (*EC* 3.4.22.12) as indices of Zn status. **64**, 201, 1990

Folate supplementation
The influence of dietary folate supplementation on the incidence of teratogenesis in zinc-deficient rats. **64**, 233, 1990

Food intake
Factors affecting the voluntary intake of food by sheep. 5. The inhibitory effect of hypertonicity in the rumen. **64**, 285, 1990

Gastric emptying
Pattern of gastric emptying in the pig: relation to feeding. **64**, 45, 1990

Gastric inhibitory polypeptide
The effect of soluble- and insoluble-fibre supplementation on post-prandial glucose tolerance, insulin and gastric inhibitory polypeptide secretion in healthy subjects. **64**, 103, 1990

Gastrointestinal tract
Pattern of gastric emptying in the pig: relation to feeding. **64**, 45, 1990

Gluconeogenesis
Effect of insulin on the utilization of propionate in gluconeogenesis in sheep. **64**, 95, 1990

Glucose
Gucose partitioning in the pregnant ewe: effects of undernutrition and exercise **64**, 449, 1990

Glucose clamp technique
The effects of underfeeding for 7 d on the thermogenic and physiological response to glucose and insulin infusion (hyperinsulinaemic euglycaemic clamp) **64**, 427, 1990

Glucose production
Effects of maternal undernutrition and exercise on glucose kinetics in fetal sheep **64**, 463, 1990

Glucose tolerance
The effect of soluble- and insoluble-fibre supplementation on post-prandial glucose tolerance, insulin and gastric inhibitory polypeptide secretion in healthy subjects. **64**, 103, 1990
The initial physiological responses to glucose ingestion in normal subjects are modified by a 3 d high-fat diet. **64**, 705, 1990

Glucose utilization
Effects of maternal undernutrition and exercise on glucose kinetics in fetal sheep **64**, 463, 1990

γ-Glutamyl hydrolase
The effect of dietary zinc depletion and repletion on rats: Zn concentration in various tissues and activity of pancreatic γ-glutamyl hydrolase (*EC* 3.4.22.12) as indices of Zn status. **64**, 201, 1990

Glycerol
Non-esterified fatty acid and glycerol kinetics and fatty acid re-esterification in goats during early lactation. **64**, 133, 1990

Growth
The effect of methylxanthines on milk volume and composition, and growth of rat pups **64**, 339, 1990
The effect of the level of dietary protein, carbohydrate and fat on urea kinetics in young children during rapid catch-up weight gain **64**, 371, 1990
The effect of fishmeal supplementation of a straw-based diet on growth and calorimetric efficiency of growth in heifers. **64**, 639, 1990

Haematology
Haematological studies on pre-menopausal Indian and Caucasian vegetarians compared with Caucasian omnivores **64**, 331, 1990
Effect of vitamin A supplementation on haemoglobin and vitamin A levels during pregnancy **64**, 351, 1990

Heart
Interaction between caffeine intake and heart zinc concentrations in the rat **64**, 561, 1990

Human colon
The effect of dietary nitrate on nitrate and nitrite excretion in man **64**, 387, 1990

Ileal digestibility
A comparison of the availability and ileal digestibility of lysine in cottonseed and soya-bean meals for grower/finisher pigs. **64**, 663, 1990
Utilization of ileal digestible amino acids by pigs: lysine. **64**, 679, 1990

Ileal digestible lysine
Utilization of ileal digestible amino acids by growing pigs: effect of dietary lysine concentration on efficiency of lysine retention. **64**, 81, 1990

Ileostomy
The effect of dietary nitrate on nitrate and nitrite excretion in man **64**, 387, 1990

Indian
Haematological studies on pre-menopausal Indian and Caucasian vegetarians compared with Caucasian omnivores **64**, 331, 1990
Effect of vitamin A supplementation on haemoglobin and vitamin A levels during pregnancy **64**, 351, 1990

Infants' drinks
Potential dental effects of infants' fruit drinks studied in vitro. **64**, 273, 1990

Inflammation
Iron sufficiency in the population of Northern Ireland: estimates from blood measurements. **64**, 219, 1990

Inositol phosphates
Binding of zinc and calcium to inositol phosphates (phytate) in vitro. **64**, 225, 1990

Insulin
Effect of insulin on the utilization of propionate in gluconeogenesis in sheep. **64**, 95, 1990
The effect of soluble- and insoluble-fibre supplementation on post-prandial glucose tolerance, insulin and gastric inhibitory polypeptide secretion in healthy subjects. **64**, 103, 1990
The initial physiological responses to glucose ingestion in normal subjects are modified by a 3 d high-fat diet. **64**, 705, 1990

Intelligence
Nutrient intakes, vitamin–mineral supplementation, and intelligence in British schoolchildren. **64**, 13, 1990

Intestinal enzyme activity
The influence of inclusion of either an antibiotic or a probiotic in the diet on the development of digestive enzyme activity in the pig. **64**, 59, 1990
Intestine
Effect of caffeine on zinc absorption and Zn concentration in rat tissue **64**, 553, 1990
Iron absorption
Iron absorption from typical West African meals containing contaminating Fe **64**, 541, 1990
The effects of sugar-beet fibre and wheat bran on iron and zinc absorption in rats **64**, 547, 1990
Iron status
Iron sufficiency in the population of Northern Ireland: estimates from blood measurements. **64**, 219, 1990
Lactase deficiency
Effect of the microbial lactase (*EC* 3.2.1.23) activity in yoghurt on the intestinal absorption of lactose: an in vivo study in lactase-deficient humans. **64**, 71, 1990
Lactation
Body composition changes in goats during early lactation estimated using a two-pool model of tritiated water kinetics. **64**, 121, 1990
Non-esterified fatty acid and glycerol kinetics and fatty acid re-esterification in goats during early lactation. **64**, 133, 1990
The effect of variation in dietary protein or mineral supply on calcium and phosphorus metabolism in lactating ewes. **64**, 147, 1990
Lactational performance
The effect of methylxanthines on milk volume and composition, and growth of rat pups **64**, 339, 1990
Lactose digestion
Effect of the microbial lactase (*EC* 3.2.1.23) activity in yoghurt on the intestinal absorption of lactose: an in vivo study in lactase-deficient humans. **64**, 71, 1990
Large bowel fermentation
Large bowel fermentation in rats given diets containing raw peas (*Pisum sativum*) **64**, 569, 1990
Lectins
Comparison of growth, nitrogen metabolism and organ weights in piglets and rats fed on diets containing *Phaseolus vulgaris* beans. **64**, 743, 1990
Effect of variable protein contents in diets containing *Phaseolus vulgaris* beans on performance, organ weights and blood variables in piglets, rats and chickens. **64**, 755, 1990
Letters to the Editors **64**, 777, 1990
Ligands
The effects of dietary ligands on zinc uptake at the porcine intestinal brush-border membrane. **64**, 733, 1990
Linear programming and dietetics
Linear programming and pediatric dietetics **64**, 307, 1990
Lipid absorption
Lipid absorption and intestinal tumour incidence in rats fed on varying levels of calcium and butterfat **64**, 505, 1990
Lipogenesis
Protein and energy relations in the broiler chicken. 8. Comparison involving protein- and lysine-adequate and inadequate diets on lipid metabolism **64**, 515, 1990
Lysine
Utilization of ileal digestible amino acids by growing pigs: effect of dietary lysine concentration on efficiency of lysine retention. **64**, 81, 1990
Protein and energy relations in the broiler chicken. 8. Comparison involving protein- and lysine-adequate and inadequate diets on lipid metabolism **64**, 515, 1990
A comparison of the availability and ileal digestibility of lysine in cottonseed and soya-bean meals for grower/finisher pigs. **64**, 663, 1990
Lysine utilization
Utilization of ileal digestible amino acids by pigs: lysine. **64**, 679, 1990
Malaria
Influence of malaria infection on peroxyl-radical trapping capacity in plasma from rural and urban Thai adults. **64**, 257, 1990
Meal composition
Thermic effect of food in man: effect of meal composition, and energy content. **64**, 37, 1990
Mental handicap
Nutrient intakes in long-stay mentally handicapped persons. **64**, 3, 1990
Metabolic rate
Alcohol and its acute effects on resting metabolic rate and diet-induced thermogenesis **64**, 413, 1990
Methylxanthines
The effect of methylxanthines on milk volume and composition, and growth of rat pups **64**, 339, 1990
Microbial phytase
Improvement of phosphorus availability by microbial phytase in broilers and pigs **64**, 525, 1990
Minerals
A possible preventive effect of low-dose fish oil on early delivery and pre-eclampsia: indications from a 50-year-old controlled trial. **64**, 599, 1990
Muscle
Effects of calcium ionophore on vitamin E-deficient rat muscle. **64**, 245, 1990
Muscle protein synthesis in response to testosterone administration in wether lambs. **64**, 691, 1990
Nitrate
The effect of dietary nitrate on nitrate and nitrite excretion in man **64**, 387, 1990
Nitrite
The effect of dietary nitrate on nitrate and nitrite excretion in man **64**, 387, 1990
Nitrogen metabolism
Nitrogen and purine metabolism at varying energy and protein supplies in sheep sustained on intragastric infusion **64**, 359, 1990
Energy and nitrogen intake, expenditure and re-

tention at 20° in growing fowl given diets with a wide range of energy and protein contents. **64**, 625, 1990

Non-essential nitrogen
Non-essential nitrogen and protein utilization in the growing rat. **64**, 653, 1990

Non-esterified fatty acids
Non-esterified fatty acid and glycerol kinetics and fatty acid re-esterification in goats during early lactation. **64**, 133, 1990

Northern Ireland
Dietary behaviours and sociocultural demographics in Northern Ireland **64**, 319, 1990

Nutrient intake
Nutrient intakes in long-stay mentally handicapped persons. **64**, 3, 1990

Nutrient restriction
Level of nutrition and visceral organ size and metabolic activity in sheep **64**, 439, 1990

Organ size and metabolism
Level of nutrition and visceral organ size and metabolic activity in sheep **64**, 439, 1990

Osmolality
Factors affecting the voluntary intake of food by sheep. 5. The inhibitory effect of hypertonicity in the rumen. **64**, 285, 1990

Oxygen uptake
Tissue and whole-body oxygen uptake in fed and fasted steers **64**, 399, 1990

Pancreatic secretion
Long-term adaptation of pancreatic response by dogs to dietary fats of different degrees of saturation: olive and sunflower oil **64**, 487, 1990

Peas
Large bowel fermentation in rats given diets containing raw peas (*Pisum sativum*) **64**, 569, 1990

Peritoneal macrophages
The effect of acute feeding of carnitine, acetyl carnitine and propionyl carnitine on basal and A23187-stimulated eicosanoid release from rat carrageenan-elicited peritoneal macrophages **64**, 497, 1990

Phaseolus vulgaris
Comparison of growth, nitrogen metabolism and organ weights in piglets and rats fed on diets containing *Phaseolus vulgaris* beans. **64**, 743, 1990

Effect of variable protein contents in diets containing *Phaseolus vulgaris* beans on performance, organ weights and blood variables in piglets, rats and chickens. **64**, 755, 1990

Phosphorus availability
Improvement of phosphorus availability by microbial phytase in broilers and pigs **64**, 525, 1990

Phosphorus metabolism
The effect of variation in dietary protein or mineral supply on calcium and phosphorus metabolism in lactating ewes. **64**, 147, 1990

Polycholorinated biphenyls
Effects of dietary polychlorinated biphenyls on cholesterol catabolism in rats. **64**, 161, 1990

Potassium chloride supplementation
Plasma electrolyte concentration in food-deprived goats orally supplemented with potassium chloride. **64**, 211, 1990

Pre-eclampsia
A possible preventive effect of low-dose fish oil on early delivery and pre-eclampsia: indications from a 50-year-old controlled trial. **64**, 599, 1990

Pregnancy
Effect of vitamin A supplementation on haemoglobin and vitamin A levels during pregnancy **64**, 351, 1990

Gucose partitioning in the pregnant ewe: effects of undernutrition and exercise **64**, 449, 1990

A possible preventive effect of low-dose fish oil on early delivery and pre-eclampsia: indications from a 50-year-old controlled trial. **64**, 599, 1990

Probiotics
The influence of inclusion of either an antibiotic or a probiotic in the diet on the development of digestive enzyme activity in the pig. **64**, 59, 1990

Propionate metabolism
Effect of insulin on the utilization of propionate in gluconeogenesis in sheep. **64**, 95, 1990

Protein
Protein and energy relations in the broiler chicken. 8. Comparison involving protein- and lysine-adequate and inadequate diets on lipid metabolism **64**, 515, 1990

Protein and energy intake
Nitrogen and purine metabolism at varying energy and protein supplies in sheep sustained on intragastric infusion **64**, 359, 1990

Protein concentrates
Utilization of ileal digestible amino acids by pigs: lysine. **64**, 679, 1990

Protein digestion
Effect of defaunation on protein and fibre digestion in sheep fed on ammonia-treated straw-based diets with or without maize. **64**, 765, 1990

Protein synthesis
Muscle protein synthesis in response to testosterone administration in wether lambs. **64**, 691, 1990

Protein utilization
Non-essential nitrogen and protein utilization in the growing rat. **64**, 653, 1990

Protozoa
Effect of defaunation on protein and fibre digestion in sheep fed on ammonia-treated straw-based diets with or without maize. **64**, 765, 1990

Purine derivatives
Nitrogen and purine metabolism at varying energy and protein supplies in sheep sustained on intragastric infusion **64**, 359, 1990

Radical trapping capacity
Influence of malaria infection on peroxyl-radical trapping capacity in plasma from rural and urban Thai adults. **64**, 257, 1990

Schoolchildren
Nutrient intakes, vitamin–mineral supplementation, and intelligence in British schoolchildren. **64**, 13, 1990

Sex hormones
Testosterone, sex hormone-binding globulin, calculated free testosterone, and oestradiol in male vegans and omnivores. **64**, 111, 1990

Sociocultural demographics
Dietary behaviours and sociocultural demographics in Northern Ireland **64**, 319, 1990
Soya-bean meal
Utilization of ileal digestible amino acids by growing pigs: effect of dietary lysine concentration on efficiency of lysine retention. **64**, 81, 1990
A comparison of the availability and ileal digestibility of lysine in cottonseed and soya-bean meals for grower/finisher pigs. **64**, 663, 1990
Starch
The effect of resistant starch on colon function in humans **64**, 589, 1990
Straw
The effect of fishmeal supplementation of a straw-based diet on growth and calorimetric efficiency of growth in heifers. **64**, 639, 1990
Sucking period
Body composition of goat kids during sucking. Voluntary feed intake. **64**, 611, 1990
Sugar-beet fibre
The biological effects and digestible energy value of a sugar-beet fibre preparation in the rat. **64**, 187, 1990
Teratogenesis
The influence of dietary folate supplementation on the incidence of teratogenesis in zinc-deficient rats. **64**, 233, 1990
Testosterone
Muscle protein synthesis in response to testosterone administration in wether lambs. **64**, 691, 1990
Thermic effect of food
Thermic effect of food in man: effect of meal composition, and energy content. **64**, 37, 1990
Thermogenesis
The effects of underfeeding for 7 d on the thermogenic and physiological response to glucose and insulin infusion (hyperinsulinaemic euglycaemic clamp) **64**, 427, 1990
Energy and nitrogen intake, expenditure and retention at 20° in growing fowl given diets with a wide range of energy and protein contents. **64**, 625, 1990
Transit time, whole gut
The effect of resistant starch on colon function in humans **64**, 589, 1990
Undernutrition
The effect of the level of dietary protein, carbohydrate and fat on urea kinetics in young children during rapid catch-up weight gain **64**, 371, 1990
Urea kinetics
The effect of the level of dietary protein, carbohydrate and fat on urea kinetics in young children during rapid catch-up weight gain **64**, 371, 1990
Uterus
Gucose partitioning in the pregnant ewe: effects of undernutrition and exercise **64**, 449, 1990
Vegans
Testosterone, sex hormone-binding globulin, calculated free testosterone, and oestradiol in male vegans and omnivores. **64**, 111, 1990
Vegetarians
Haematological studies on pre-menopausal Indian and Caucasian vegetarians compared with Caucasian omnivores **64**, 331, 1990
Vitamin A supplementation
Effect of vitamin A supplementation on haemoglobin and vitamin A levels during pregnancy **64**, 351, 1990
Vitamin B_{12}
Haematological studies on pre-menopausal Indian and Caucasian vegetarians compared with Caucasian omnivores **64**, 331, 1990
Vitamin B_{12}-dependent enzymes
Methylmalonyl-CoA mutase (*EC* 5.4.99.2) and methionine synthetase (*EC* 2.1.1.13) in the tissues of cobalt–vitamin B_{12} deficient sheep. **64**, 721, 1990
Vitamin E deficiency
Effects of calcium ionophore on vitamin E-deficient rat muscle. **64**, 245, 1990
Vitamins
A possible preventive effect of low-dose fish oil on early delivery and pre-eclampsia: indications from a 50-year-old controlled trial. **64**, 599, 1990
Vitamin–mineral supplementation
Nutrient intakes, vitamin–mineral supplementation, and intelligence in British schoolchildren. **64**, 13, 1990
Weighed intake
Dietary behaviours and sociocultural demographics in Northern Ireland **64**, 319, 1990
Zinc
Binding of zinc and calcium to inositol phosphates (phytate) in vitro. **64**, 225, 1990
Interaction between caffeine intake and heart zinc concentrations in the rat **64**, 561, 1990
Zinc absorption
The effects of sugar-beet fibre and wheat bran on iron and zinc absorption in rats **64**, 547, 1990
Effect of caffeine on zinc absorption and Zn concentration in rat tissue **64**, 553, 1990
The effects of dietary ligands on zinc uptake at the porcine intestinal brush-border membrane. **64**, 733, 1990
Zinc deficiency
The influence of dietary folate supplementation on the incidence of teratogenesis in zinc-deficient rats. **64**, 233, 1990
Zinc status
The effect of dietary zinc depletion and repletion on rats: Zn concentration in various tissues and activity of pancreatic γ-glutamyl hydrolase (*EC* 3.4.22.12) as indices of Zn status. **64**, 201, 1990
